OBJECTIVE

Passionate about frontend web development with a strong focus on building clean, responsive, and user-friendly interfaces. Proficient in HTML, CSS, and JavaScript, with hands-on experience creating interactive and visually appealing web pages. Currently learning ReactJS to strengthen component-based development and modern UI practices. Eager to apply my skills in a professional environment and actively seeking an internship opportunity to gain real-world experience and contribute to impactful frontend projects.

EDUCATION

2024 - 2028 Bachelor's Degree at **Siddhartha Academy Of Higher Education**
- Current CGPA: 8.54
2024 Class 12th Saradha Jnr College - 94%
2022 Class 10th Sri Chaitanya Techno School - 87%

TECHNICAL SKILLS

- **Languages:** C, Java, Python, JavaScript
- **Frontend:** HTML, CSS
- **Frameworks:** ReactJS (Learning)
- **Database:** MySQL, SQL Lite
- **Tools:** Git, GitHub
- **DSA:** Solved Standard problems on LeetCode

PROJECTS

1. AI-Driven Oceanographic Data Analysis App (SIH)

- Developing an **AI-powered mobile application** to visualize, analyze, and interpret oceanographic data.
- Integrated **oceanographic sensor data, marine datasets, and research records** into a centralized platform.
- Applied **AI-driven analytics** to transform raw marine data into **actionable insights**.
- Built **interactive visualizations and dashboards** to support research and decision-making.

Impact

- Reduced marine data analysis effort by up to **40%** using AI-powered insights.
- Delivered real-time ocean visualizations for research, policy, and conservation.
- Enabled offline-first data access for coastal and field operations.

2. FODO – Surplus Food Donation Platform

- Contributed with Frontend Skills in a platform for restaurants and hotels to donate surplus food within **5 minutes**.

- Added **geolocation-based donor-requester matching** with request timeout to ensure freshness.
- Built a **point-based reward system** to encourage community helpers.
- Integrated a **live map** for tracking nearby donations and active requests.

Impact:

- Built a sustainable platform to reduce **food wastage**.
- Encouraged **community participation** through rewards.
- Enabled **faster donor-to-needy matching** using location-based services.

CERTIFICATIONS

- **Cisco Networking Academy** – Python Essentials
- **Cisco Networking Academy** – C Essentials
- **Cisco Networking Academy** – Linux Essentials
- **Udemy** – Frontend Developer Certification
- **NPTEL** – Foundations of R Software

ACHIEVEMENTS

- Selected at the **Smart India Hackathon (SIH) – College Level**.
- Participated in **L4G Solutions – Introduction to Gemini 2.0 Flash** workshop.
- Competed in **IT Splash, Siddhartha Academy of Higher Education (SAHE)**:
 - **Code Rush** – DSA Coding Competition
 - **Innovix** – Technical Presentation
- Participated in the **SAHE AI National-Level Hackathon**.
