Dear Hiring Manager,

I am currently pursuing a Bachelor of Technology in Computer Science and Engineering at Velagapudi Ramakrishna Siddhartha Engineering College and am actively seeking an internship or entry-level opportunity in software development. I am particularly interested in roles related to backend and web application development, where I can apply my technical skills and gain real-world industry experience. Your organization's focus on building scalable and impactful software solutions strongly aligns with my career aspirations.

Through my academic coursework and hands-on projects, I have developed a strong foundation in programming, backend development, and database systems. Some key strengths that I would bring to your team include:

- **Backend Development Skills:** Hands-on experience using Django and Flask frameworks to build secure, scalable web applications. Implemented RESTful APIs, role-based authentication, and database-driven systems in multiple projects.
- **Problem Solving and System Design:** Strong understanding of data structures, algorithms, and object-oriented programming principles. Comfortable breaking down complex problems and designing efficient, maintainable solutions.
- **Database and API Knowledge:** Practical experience working with MySQL, SQLAlchemy, and relational database design. Familiar with writing optimized SQL queries and managing data securely within backend systems.
- **Collaboration and Learning Mindset:** Comfortable using Git and GitHub for version control and collaborative development. Actively participate in workshops and self-learning initiatives to continuously enhance technical expertise.

My résumé is enclosed for your review and provides additional details about my academic background and projects. I would welcome the opportunity to discuss how my skills, enthusiasm, and commitment to learning can contribute to your development team. I can be reached at +91-9985145125 or via email at jaswanth1916@gmail.com. Thank you for your time and consideration, and I look forward to hearing from you.

Sincerely,

Kethavath Jaswanth Naik
