Dear Hiring Manager,

As a highly motivated and passionate Computer Science and Engineering undergraduate with a strong focus on Artificial Intelligence and Machine Learning, I am writing to express my interest in an entry-level role or internship opportunity within your organization. With hands-on experience in machine learning, deep learning, and software development, I am eager to apply my technical skills to solve real-world problems and contribute meaningfully to your team.

My academic background includes a Bachelor of Technology in Computer Science and Engineering from Velagapudi Ramakrishna Siddhartha Engineering College, where I have maintained a strong academic record. I have practical experience working with Python, SQL, PyTorch, TensorFlow, and modern AI frameworks such as LangChain and Hugging Face Transformers. Through my projects, I have developed solutions ranging from AI-powered agentic middleware for IT automation to computer vision models for medical image analysis and Vision Transformer-based classification systems.

In addition, my experience as an Open Source Contributor at GirlScript Summer of Code has strengthened my collaborative and problem-solving skills. I contributed to building machine learning models, developing RESTful APIs, and integrating end-to-end systems using Git and Agile workflows. These experiences have helped me develop a strong foundation in writing scalable, maintainable code and working effectively in team-based environments.

I am particularly enthusiastic about opportunities that allow me to work on cutting-edge technologies in AI, data science, and software engineering. I am confident that my technical skills, strong learning ability, and dedication will enable me to add value to your organization while continuing to grow professionally.

Thank you for your time and consideration. I would welcome the opportunity to further discuss how my skills and experiences align with your requirements.

Sincerely,

Kishore Musetty
